

AMATEIA is an Italian brand aimed at satisfying the obvious need to make a woman feel free and confident in delicate periods (white leaks, menstrual flow, post-tum). A product that celebrates women through modernity, eco-sustainability and style. A line of seaside fashion designed, designed and made in Italy.

The brand has studied and developed a technique that can accompany all women and protect them from losses for whole days at the sea or in the pool.

The functional and fashionable result to take care of women and the planet.

**GIVE UP YOUR WORRIES!**

# AMATEIA

## HOW IT WORKS?

The brand is committed to protecting the environment. In addition to the cost, absorbents and pads are made up of 90% of non-recoverable plastic. Our costumes put an end to the use of invasive solutions, being washable and reusable: they minimize pollution caused by intimate disposable instruments.

Health and menstrual hygiene for girls and women with disabilities and pathologies, such as endometriosis. Protective swimsuits assist the woman, defend her from periodic losses, continuous or unexpected, allow them to regain freedom, self-confidence and a sense of well-being.

The advanced technology of our products consists of 3 layers: a draining, a waterproofing and a breathable. Together they allow revolutionary absorbent qualities and guarantee comfort and efficiency.

Thanks to a careful choice of fabrics, based on summer trends, the product looks like a normal swimsuit, colorful and fashionable. The goal is to make women feel comfortable wearing a garment that belongs to them, reflects their style and respects their shapes.

### ULTRA-ABSORBENT

Protection up to 16h, against all types of leakage

### DRAINING

No more feeling of wet

### WATERPROOF AND BREATHABLE

Anti smell and anti loss
